

**Product:** SUPA Dual Purpose UV Wash

**Category:** Pressroom chemicals

## Technical Information

<b>Description</b>	A dual-purpose roller and blanket wash-up solution for UV curing and/or conventional paste inks.
<b>Storage &amp; Handling</b>	Store at moderate temperature in dry, well ventilated area, away from sunlight. Always keep the containers tightly closed when not in use. The use of hand gloves is recommended.
<b>Packaging</b>	20 and 200 Litres.
<b>Precautions</b>	Store away from sources of heat, sparks, open flames and static electricity charges. The use of gloves or barrier cream is strongly recommended while handling press washes.

## Properties

- Excellent ink solvency; for enhanced productivity.
- High flash point (>62°C); conforms to AIII standards.
- Suitable for both manual and automatic wash-up; ease of use.
- Water emulsifiable and washable; for single step cleaning.
- Recommended as general cleaner for UV inks, varnishes and oil base inks.
- Dries completely without leaving greasy residues; for reduced wastages.

## Usage Instructions

<b>Automatic</b>	As per machine manufactures instructions.
<b>Manual</b>	Blankets: Apply with a damp cloth or sponge to dilute and remove the ink layer. Remove the residue with a clean damp cloth or sponge. Finish with water application and wipe dry. Inking Rollers: Manual Apply wash from a squeeze bottle to loosen the ink film. Fix wash up blade and finish with water.
