

Product: SUPA LE UV Wash

Category: Pressroom chemicals

Technical Information

Description	Meets FOGRA approval for a regulation free wash-up solution for offset machines using UV curing inks and / or varnishes.
Storage & Handling	Store at moderate temperature in dry, well ventilated area, away from sunlight. Always keep the containers tightly closed when not in use. The use of hand gloves is recommended.
Packaging	20 Litre Containers.
Precautions	Avoid prolonged contact of the product with unbaked PS positive and CtP thermal plates. Store away from sources of heat, sparks, open flames and static electricity charges. The use of gloves or barrier cream is strongly recommended while handling press washes.

Properties

- A111 classification non-flammable wash for use as an automatic & manual wash.
- Low odour formulation.
- Recommended for undiluted use.
- Safe on baked positive and CTP thermal plates.
- Safe on baked positive and CtP thermal plates.
- Water-washable.

Usage Instructions

Automatic	As per machine manufactures instructions.
Manual	<p>Rollers: Apply the solution undiluted directly to the rollers and allow the machine to idle for a few revolutions, then apply the wash up blade. Once the solution flowing down the blade is clean; rinse off with water and allow the rollers to dry before lifting the wash up blade.</p> <p>Blankets: Apply the wash to a damp lint free cloth and wipe across the blanket with light even pressure. Rinse off with water then buff dry using a clean lint free cloth.</p>
