

**Product:** SUPA Workshop Cleaner

---

**Category:** Pressroom chemicals

---

## Technical Information

<b>Description</b>	A highly concentrated, waterbased, cleaner and degreaser for economical cleaning for a wide range of print shop related purposes.
<b>Storage &amp; Handling</b>	Store in a cool dry area, away from sunlight. Always keep the containers tightly closed when not in use. Check the safety data sheet for correct PPE.
<b>Packaging</b>	5 Litre Bottles.

## Properties

- Can be used to clean machinery, factory floors, plastic and metal parts. Removes ink, grime, oil and grease.

## Usage Instructions

As a general purpose cleaner – dilute with 10-20 parts water to 1 part cleaner then apply to the surface via spray, brush or clean cloth. Leave on surface for 2-3 minutes then rinse off with clean water.

When cleaning up spilled oil, grease or extremely dirty surfaces apply the product un-diluted and leave for 2-3 minutes before hosing off with water.

To clean concrete and other types of masonry dilute 10:1 and allow the product to penetrate for 2-3 minutes and then wash off with hot or cold water.

As an automotive cleaner dilute product with water 10-20 parts to 1 part cleaner and apply product via a high pressure sprayer and rinse off with clean water after 2-3 minutes.
